OBJECTIVES:

Participants will:

1. access practical research related to issues of eating and feeding with developmentally delayed, typically developing, and children at risk or with autism spectrum disorders.
2. access survey results from OT, SLP, and other professionals related to baseline comfortability in accessing, resources, and providing services to ASD.
3. provide feedback on a decision tree model for professionals to establish a consistent effective protocol for assessment and treatment impacting eating and feeding issues that interfere with positive learning environment.
4. provide common language descriptors for eating and feeding issues which facilitate linking common issues with known treatment strategies from literature and research.

TARGET AUDIENCE:

Early ACCESS providers, Early Childhood staff, Occupational Therapists, Speech Language Pathologists, Registered Dieticians, Parents of youngsters on the Autism Spectrum

OT, SLP, Nutrition CEU's

A certificate of attendance will be provided to all who register by March 26, 2008. **2.0 contact hours will be allowed.**

All registrations will be confirmed via e-mail; No phone in, fax, mail, or e-mail registrations are accepted. Register deadline is **March 26** to accommodate mailing of registration and certificates.
