(covers all 4 sessions)

## ***Cardiovascular Disease – What You Should Know***

Learn about risk factors, signs, symptoms, and leading edge treatments for atherosclerosis: coronary artery disease and peripheral vascular disease, stroke, heart failure, arrhythmia and valvular disease. Mini Medical School is taught by University of Iowa Carver College of Medicine faculty, and is designed for anyone who is curious about current issues in medicine and science. A science or medical background is **not** needed to participate.

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the UI Health Care Marketing and Communications Division of External Relations in advance at 335-8886.
