

University of Iowa Hospitals & Clinics

THE IOWA DIFFERENCE

Research and EBP is our everyday. The Office of Nursing Research and Evidence-Based Practice (EBP) team is renowned for leading world-class inquiry, innovation, and implementation. In all we do, we are patient-centered and incorporate diversity, equity, and inclusion.

University of Iowa Hospitals & Clinics Nursing is four times designated Magnet® and was awarded the Magnet Prize® in 2014 in recognition of the innovative use of EBP to positively impact patient care. *Forbes Magazine* has recognized University of Iowa Health Care as one of the top health care employers in the United States.

Nurse Scientist

- Our team of nurse scientists and change agents are laser focused on incorporating their roles of leader, researcher, and educator to enhance the scientific foundation for nursing care and patient outcomes
- Our hospital is a fast-growing academic medical center with over 800 inpatient beds and more than 1 million ambulatory visits per year, providing abundant opportunity for patient and clinician engagement.
- Our highly collaborative research-intensive university community supports EBP and our programs of research through strong partnerships across campus and spanning the globe.
- Our longstanding, award-winning partnership with the University of Iowa College of Nursing and Institute for Clinical and Translation Science (CTSA) support clinical inquiry.
- Job responsibilities may include:
 - Designing and conducting research including diverse methodologies
 - Performing advanced data analyses
 - Preparing and submitting first author and team manuscripts for publication
 - Serving as primary or contributing investigator to research proposals
 - Developing and implementing programs that empower nurse-led change
 - Providing research and EBP consultation and mentoring for clinical teams

WHY JOIN OUR TEAM

We are pioneers and experts—home of the Iowa Model®, Iowa Implementation for Sustainability Framework®, *Evidence-Based Practice in Action: Comprehensive Strategies, Tools, and Tips From University of Iowa Hospitals & Clinics* books and numerous application-oriented tools and resources for clinicians.

“Nurse Scientists at Iowa are passionate about improving health care quality and safety outcomes for patients and clinicians; the impact is both local and global quality.”

Laura Cullen, DNP, RN, FAAN
Nurse Scientist
