

TREATING ASTHMA AND COPD: CHART OF INHALED MEDICATIONS

Pictures adapted from: Thomson Micromedex Healthcare Series PDR™ available at <http://www.thomsonhc.com/hcs/librarian>. Accessed on August 3, 2018.

Short-Acting Inhaled Bronchodilators: used to relax tight airways. They are used as needed for quick relief of coughing, wheezing, and shortness of breath.

ProAir® HFA

Proventil® HFA

Ventolin® HFA

Xopenex® HFA

(Albuterol)

(Levalbuterol)

Long-Acting Inhaled Bronchodilators: relax tight airways, last 12-24 hours, and are used for long-term control

Serevent® Diskus®

(Salmeterol)

Short-Acting Anticholinergic Medications: mainly reserved for COPD, but may be used in asthma; help to relax the airways

Atrovent® HFA

(Ipratropium)

Combivent® Respimat®

(Ipratropium & Albuterol)

Arcapta® Neohaler®

(Indacaterol)

Long-Acting Anticholinergic Medications: mainly reserved for COPD, but may be used in asthma; help to relax the airways

Striverdi® Respimat®

(Olodaterol)

Tudorza® Pressair®

(Acclidinium)

Incruse® Ellipta®

(Umeclidinium)

Spiriva® Handihaler

(Tiotropium)

Spiriva® Respimat®

Combination Medications: contain both a long-acting bronchodilator and glycopyrrolate

Bevespi® Aerosphere®

(Glycopyrrolate/Formoterol)

Utibron® Neohaler®

(Glycopyrrolate/Indacaterol)

 Dry-powder inhaler

Inhaled Corticosteroids: used daily to reduce and prevent airway inflammation

Alvesco®

(Ciclesonide, 80, 160 mcg)

Asmanex® Twisthaler

(Mometasone)

QVAR®

(Beclomethasone 40, 80 mcg)

QVAR Redihaler®

Pulmicort Flexhaler®

(Budesonide 90, 180 mcg)

Flovent® HFA

(44, 100, 220 mcg)

Flovent® Diskus®

(50, 100, 250 mcg)

Annuity® Ellipta®

(Fluticasone 50, 100, 200 mcg)

Combination Medications: combination of a long-acting bronchodilator and inhaled corticosteroid

Advair® Diskus
100/50; 250/50; 500/50

(Fluticasone/Salmeterol)

Advair® HFA
45/21; 115/21; 230/21

(Fluticasone/Salmeterol)

Airduo® Respiclick®
55/14; 113/14; 232/14

(Fluticasone/Salmeterol)

Symbicort®
80/4.5; 160/4.5

(Budesonide/Formoterol)

Dulera®
5/100; 5/200

(Mometasone/Formoterol)

Breo® Ellipta®
100/25; 200/25

(Fluticasone/Vilanterol)

 Dry-powder inhaler

Combination Medications: combination of a long-acting anticholinergic and long-acting bronchodilator

Stiolto® Respimat®
2.5/2.5

(Tiotropium/Olodaterol)

Anoro® Ellipta®
62.5/25

(Umeclidinium/Vilanterol)

Combination Medications: combination of a long-acting anticholinergic, long-acting bronchodilator, and corticosteroid

Trelegy® Ellipta®
100/62.5/25

(Fluticasone/Umeclidinium/Vilanterol)
