The Dystroglycanopathies: 2021 Iowa Wellstone Center Patient and Family Conference

Due to the enthusiasm for an in-person conference, we hope to host a hybrid meeting with options for attending in-person or virtually via Zoom.
A final decision regarding hybrid vs. virtual-only meeting will be made by the end of April.

In keeping with University of Iowa guidelines:

- The number of in-person attendees will be limited.
- Supervised play for children will **not** be provided if we host in-person.
- Teen sessions will be held **entirely** via Zoom.

Registration details to follow later this year.

Questions? Contact Carrie Stephan at (319) 356-2673 or carrie-stephan@uiowa.edu

RESEARCH APPOINTMENTS:

Participation in Wellstone study visits are greatly appreciated and vital to our research. If we are not able to host an in-person conference, we will hold two Saturday clinics for small groups of participants to complete yearly research exams.
