

Executive Health Comments:

- Convenience was exceptional, I really appreciated having these appointments all in one morning. Normally these would have taken several visits to complete over a few months.
- Kim was excellent. She ensured we moved quickly from clinic to clinic and we were checked in and seen with very little wait. Having the test results available when meeting with Dr. Fick was a huge benefit as well, as it allowed him to discuss each result with me. Dr. Fick was excellent, taking the time to describe each result and what it means to me.
- The visit is well planned and executed. Very efficient timewise for comprehensive health review.
- The whole process was easy to navigate, and it was really worth the time and was of great value.
- I appreciate the thoughtfulness and support of the entire staff for my visit.
