

Summary of COI Policy Changes Effective 07/05/ 18

1. **Definitions:** The words “biotech” and “faculty startups” were added to the first sentence of the definition for industry.
 - “Industry” is defined as any person or company that produces health care goods and services, including any pharmaceutical, medical device, medical publishing, startup, biotech, or medical equipment company, or any Medical Education Communication Company (MECC). It also includes any person or company seeking to do or doing business with University of Iowa Health Care.

2. **Section V) Industry Compensation A) Consulting Expertise:**
 - The last sentence in the second paragraph in Section V) A) was added to comply with Internal Audit findings:
 - “A copy of the executed contract must be submitted to the COI office”.
