Skills for Educators Workshop:
How to Design Instruction
Susan Lenoch, M.A.
Jeff Pettit, Ph.D., M.A.

November 9, 2017
8:30-11:30AM
HP Smith Conference Room (W256 GH)

In this workshop, you will learn about principles and processes that lead to efficient and effective instruction, whether for a single lesson or a whole course.

Objectives:
• Describe the process of instructional design, including major steps in the process and the purpose of each step.
• Determine goals for an instructional unit or program based on thoughtful analysis of the need and situation.
• Write useful and meaningful learning objectives that describe the knowledge, skills and/or attitudes that students will achieve.
• Use learning objectives to ensure that instruction and assessment aligns with the goals and objectives to increase the likelihood of effective and efficient learning.
• Develop a plan to evaluate the effectiveness of instruction.

Presented by:
The Office of Consultation and Research in Medical Education (OCRME)
University of Iowa Roy J. and Lucille A. Carver College of Medicine

Pre-registration is requested. Please register with Stephanie at 335-8901 or stephanie-burnett@uiowa.edu

Individuals with disabilities are encouraged to attend all University of Iowa–sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact OCMRE in advance at 335-8901.
