This workshop will help you to develop strategies for effective questioning, group management, and deeper learning with small groups of learners.

Objectives:
• Describe strategies for creating a small group environment that is conducive to learning and participation
• Apply effective questioning strategies to encourage deeper learning
• Discuss possible solutions to problematic group situations

Presented by:
The Office of Consultation and Research in Medical Education (OCRME)
University of Iowa Roy J. and Lucille A. Carver College of Medicine

Pre-registration is requested. Please register with Stephanie at 335-8901 or stephanie-burnett@uiowa.edu

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact OCMRE in advance at 335-8901.
