

Welcome to the OB Inpatient Unit

We are honored to care for you.

Your Team

- Doctor or midwife, and pediatrician
- Nurses and nursing assistants
- Food and nutrition staff
- Hearing screen staff
- Registration staff

- Social worker
- Lactation consultants
- Research nurses
- Environmental services staff

Unit Security

- Mother, baby, and 1 support person will have matching bracelets. These are checked each time mother and baby are reunited. Do not remove them.
- Never leave baby alone in your room.
- Main unit entrance door is locked and is the only entrance for visitors.
- Only staff with baby feet on their name badge are allowed to take baby from your room.
- Always transport baby in their bassinet.

Handwashing

uichildrens.org

- Wash your hands:
 - Before touching your baby
 - After changing your baby's diaper
 - After you use the restroom
- Ask visitors to wash their hands before touching your baby

Changing Medicine. Changing Kids' Lives.®

Safety
