

Pediatric Cancer and Blood Disorder Center

Welcome to the Pediatric Cancer and Blood Disorder Center. If your child does not need to stay the night in the hospital, the clinic offers:

- Lab draws
- Provider visits
- Infusions
- Procedures

Your child may have medical, nursing, and therapy services during these visits.

Your child's care team will work with you to make a schedule. They will talk with you about:

- Your child's therapy needs
- Your family's needs
- Transportation when deciding your child's clinic schedule

When your child comes to the clinic:

- Check in at your scheduled time. This will shorten your wait time.
 - Afternoon visits may help you child be seen quicker.
- Stay with the child during the visit.
- They will be offered a boxed lunch if their therapy will last more than 3 hours.
 - The cafeteria is open, but the clinic has very few snack choices.
- Bring any items you may need, such as:
 - Medicines that would be given at home
 - Extra snacks
 - Diapers and wipes
 - Formula
- Child Life and other activities will be available throughout the day.
