

Care After Discharge

High Risk Infant Follow-up Program

Many Neonatal Intensive Care Unit (NICU) graduates can be a part of this program. At these visits, a nurse practitioner will:

- Look at how your child acts
- Look at how your child interacts
- Look at how your child moves
- Talk with you about how your child is feeding and growing
- Teach you ways to help your child learn

Some children will have a visit with a neonatology doctor. Claims will be sent to insurance like other medical care. We value hearing from you about your child.

Call 319-353-6880 with questions.

Early ACCESS

Your child may be able to use this program. It will look at your child's strengths and needs. They can meet you in your home or at your childcare setting. This program is funded by the federal government and run by a local education agency.

Call 1-888-425-4371 or talk with your child's care team if you have questions.
